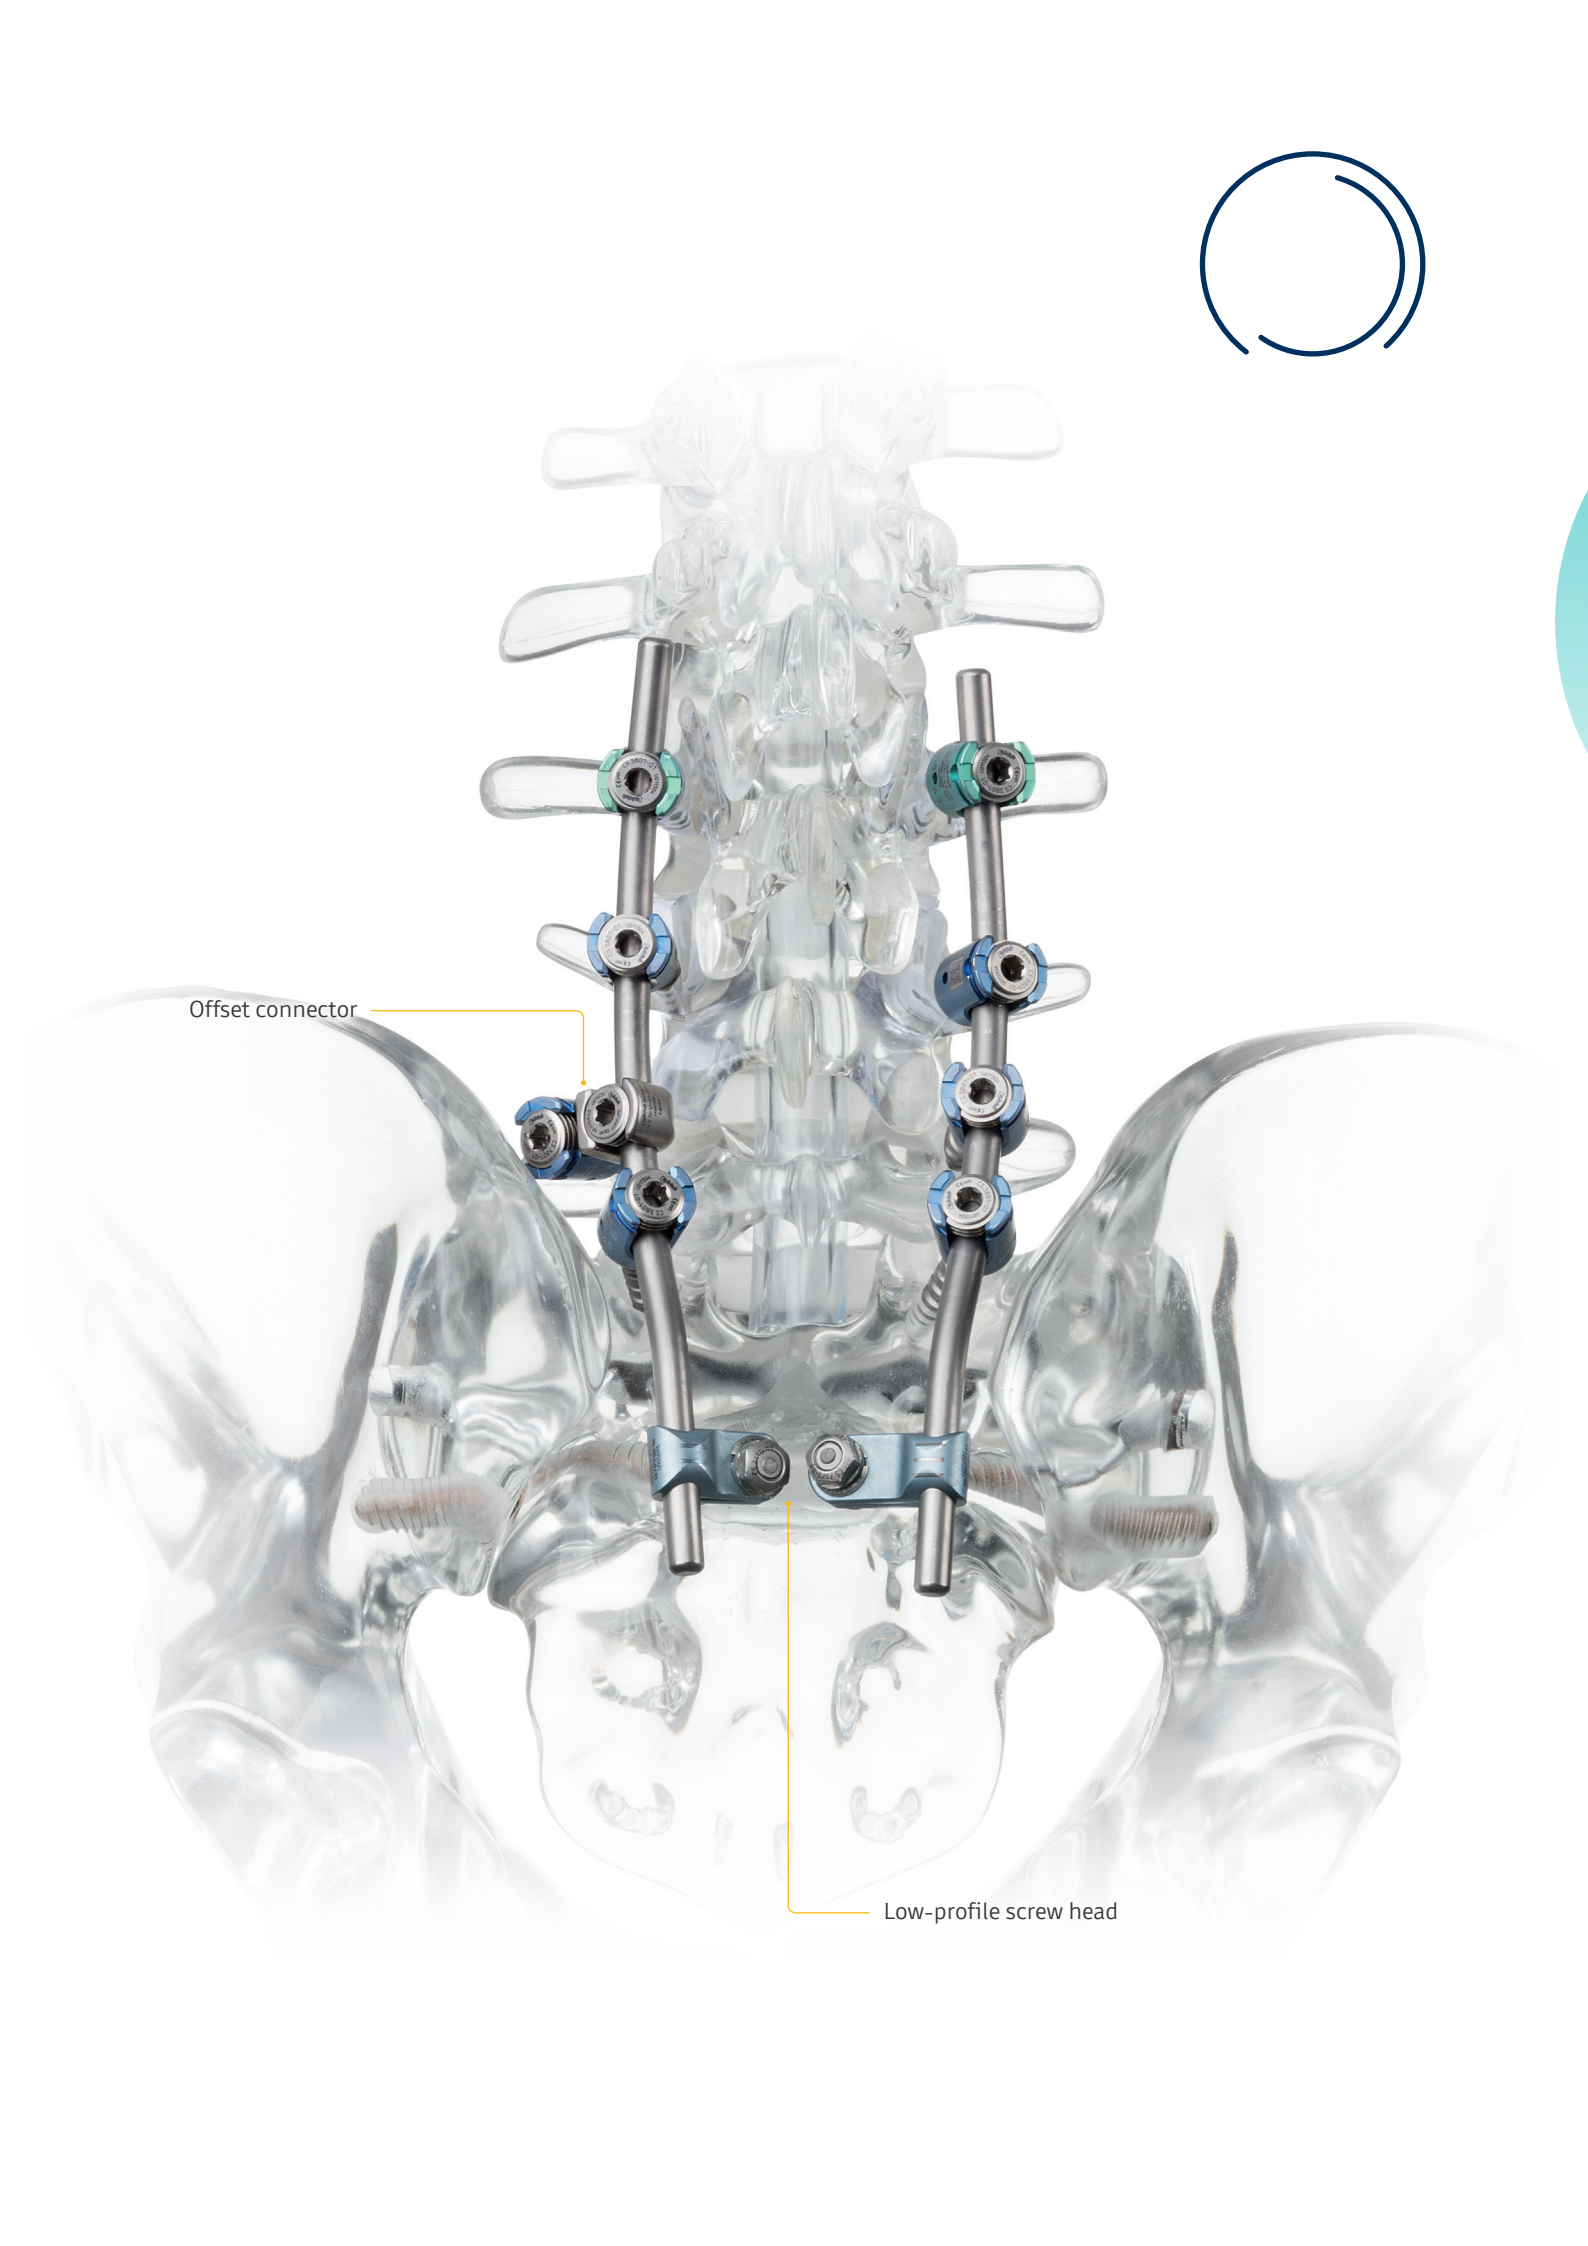
Cannulated and perforated screws (except Ø 4.5 mm)

MIS X-Tab screw for percutaneous application



Offset connector
Low-profile screw head

uBase™

System

- Stabilization of the sacrum and ilium in connection with uCentum
- Purely sacral, sacroiliac or purely iliac placement
- Polyaxial screw head, pre-angled medial/lateral or cranial/caudal
- Additionally available: fixed-angle screw
- All screws cannulated
- Implants available sterile

Advantages

- Improved safety thanks to cannulated screws and comprehensive navigation module for preparation of the surgical procedure and screw insertion
- High flexibility due to polyaxiality of 48°
- Percutaneous application (polyaxial screws)
- Gentle on soft tissue due to screw head with low profile (fixed-angle screw)
